Croatia

May 2015

Dear Ilija,

The European Society of Human Genetics would like to thank you for making DNA DAY 2015 a big success! You joined the new record number of 276 students and their teachers from 19 countries whose essays were submitted to this Eighth Annual DNA Day essay contest. We hope that you and your classmates now share some of our enthusiasm for the Science of Genetics and will encourage others to take part next year.

There were many excellent and original essays. Please see the website [www.dnaday.eu](http://www.dnaday.eu) for the winning essays and for memorable quotes from your submissions. Even if you were not among the winners, we hope you enjoyed your research and learned from your efforts, as we have from you.

Please accept this

**CERTIFICATE OF PARTICIPATION AND APPRECIATION**  
**for your contribution to a successful DNA DAY 2015**

Yours sincerely,

Professor Helena Kääriäinen  
President of the ESHG
